MERCHANT SHIPPING

New Delhi, the 27th March 1957

S.R.O. 1060.—In exercise of the powers conferred by section 191 of the Indian Merchant Shipping Act, 1923 (21 of 1923), the Central Government hereby makes the following further amendment in the Unberthed Passenger Ships Rules, 1954, the same having been previously published as required by sub-section (3) of the said section, namely:—

In the Appendix at the end of the said Rules, for the paragraph relating to “Conditions of approval of disinfectants for ships—I. Coal Tar Disinfectants”, the following paragraph shall be substituted, namely:—

“CONDITIONS OF APPROVAL OF DISINFECTANTS FOR SHIPS.

I. Coal Tar Disinfectants.—Coal tar disinfectants are required to be approved by the Central Government. The approved disinfectant shall conform to the following specifications:—

(1) **General Description.**—The disinfectant shall be a white fluid and shall be a finely dispersed, stabilised emulsion containing not less than 25 per cent. by weight of coal tar acids, with or without other phenolic compounds and coal tar oils. It shall not contain (a) Mercury salts (b) Kerosene or other non-phenolic petroleum distillates.

(2) **Germicidal Value.**—The germicidal value of disinfectant fluids shall not be less than 5 expressed in terms of the phenol co-efficient determined by the Crown Agents Test (The British Admiralty Test).

(3) **Stability on Storage.**—A white disinfectant fluid shall remain stable for a period of at least three months when stored within a temperature range of 15°C to 45°C and shall not exhibit any precipitation nor show separation of more than traces of oil. A creamed fluid which can be restored to an uniform dispersion on shaking is permitted.

(4) **Stability after Dilution.**—The fluid shall be miscible with artificial sea water and shall give a stable emulsion in concentrations between 1 and 10 per cent. by volume of disinfectant fluid and shall not show more than one per cent. of separation by volume when maintained within a temperature of 15°C to 45°C for a period of six hours.

(5) **Odour and Corrosive Action.**—The fluid shall be free from objectionable smell and when used as directed shall have no more corrosive action on metals than that occasioned by the water employed as diluent.

(6) **Packing and Marking.**—When no container is specified in the tender form, the fluid shall be packed in containers capable of being stored under normal conditions for six months without deleterious interaction between the fluid and the container. The containers shall be clearly marked with the following details:

- (a) name of manufacturer;
- (b) month and year of manufacture;
- (c) the phenol coefficient;

- (d) instructions for use for various purposes; and
 (e) weight of material in the container.

The solutions recommended in the instructions shall be suitable for the purpose specified. The labels shall be rendered resistant to moisture by the use of an efficient label varnish or other equally effective treatment."
